Discover Swedish Organic

We are reaching out on behalf of Organic Sweden, representing eleven of **Sweden's most innovative organic food companies**. Following the positive response at the Natural & Organic Products Expo 2025, we are returning to London and would be delighted to meet you at the **Natural & Organic Food Show on 16-17 September pavilion NF341**. We would welcome the opportunity to introduce our brands, showcase exciting new products, and explore potential business opportunities together.

Our group includes producers that reflect the best of Swedish organic innovation across **three key segments**:

- Innovations from Swedish organic farming
- Plant-based organic products from Sweden
- Healthy indulgence

Discover Swedish Organic

Innovations from Swedish organic farming

- Fazer Mills - organic oat rice and sustainable oat ingredients
- Berte Qvarn - traditional, high-quality oats and flours
- Camelina of Sweden - unique oils and seeds from Camelina sativa
- Torfolk Gård - organic jams, marmalades, and berry preserves

Plant-based flavour from Swedish pulses

- Oh Mungood - organic mung bean proteins for plant-based menus
- Swedish Wholefoods - innovative plant mince made from Swedish pulses

Healthy indulgence

- DIG - organic functional snacks
- Moonvalley - vegan performance bars founded by professional athletes
- Nordic Chocolate - arctic bean-to-bar chocolate
- Svenska LantChips - Swedish-made organic crisps crafted from local potatoes
- Biofood - wide assortment of organic staple foods

Innovations from Swedish organic farming

Fazer Mills

A pioneer in sustainable oat production, offering **organic oat rice** and high-quality **oat ingredients** developed for both food and beverage applications.

Fazer's oat products are valued for their functionality, taste, and nutritional profile, providing natural solutions for a growing plant-based market.

Plant-based organic products from Sweden

Swedish Wholefoods

An innovative company transforming Swedish-grown pulses into innovative **organic plant mince products**.

Using whole peas and beans as their main ingredients they maximize fibre content in a natural way. The wholefoods focus gives plant points and an extremely low carbon footprint.
